TOOL / GARAGE

E780x HELMET HANGER

- Wall hanging hook for your garage or van.
- Can be hung on canopy pole with clamp bands and zip ties.
- Not only for hanging helmets, but also other items helps make your garage well organized.
- Made of durable steel.

E7802 HELMET HANGER

Type A

Color : Black
Material : Steel
Size : W164 x D48.7 x H96.2 (mm)
Weight : 160 g

E7804 HELMET HANGER

Type B

Color : Black
Material : Steel
Size : W183.6 x D48.7 x H124 (mm)
Weight : 225 g

P430x SPRING HOOK

- Make your exhaust spring removal easy.
- Body is made of durable stainless steel, and does not rust.
- Rubber coated handle provide better grip for secure operation.
- Available S and L sizes.

P4302 SPRING HOOK S

Size : W100 x T185 (mm)
Weight : 84 g

P4304 SPRING HOOK L

Size : W125 x T235 (mm)
Weight : 115 g

P800x SNAP RING PLIER

- Pliers for C type snap rings.

P8002

Style : Internal 90 degree
Head style : 90 degree
Tip diameter : 1.8 mm
Open width : 22 mm
Head length : 24 mm
L head length : 18 mm
Size : 158 mm
Weight : 151 g

P8003

Style : External
Head style : Straight
Tip diameter : 1.8 mm
Open width : 30 mm
Head length : 44 mm
Size : 165 mm
Weight : 146 g

P801x GEAR PULLER

- Tool for easily removing rusted and fixed kick arm, clutch arm, shift pedal, etc.

P8011 Wide : 70 mm

Corresponding gear size : 20-40 mm
Size : W67 x D33 x H100 (mm)
Weight : 341 g

P8012 Wide : 100 mm

Corresponding gear size : 20-55 mm
Size : W100 x D35 x H165 (mm)
Weight : 588 g

P34xx SHOCK SPANNER WRENCH

- Preload spanner wrench make easy to adjust your spring preload on your suspension.
- Wrench size available for common preload nuts.
- Available 3 different wrenches.

P3412

Wrench size : 72 mm
Thickness : 5 mm
Length : 240 mm
Weight : 192 g

P3414

Wrench size : 82 mm
Thickness : 5 mm
Length : 255 mm
Weight : 205 g

MOTORCYCLE TOOL

SPOKE BENDER

You can make your own spokes!

By processing blank spokes (straight spokes without bends), you can create one-off spokes such as discontinued models that are difficult to find stock parts for and rim size changes.

More than 200 kinds of spoke lengths are set from four wire diameters of 2.9 mm / 3.2 mm / 3.5 mm / 4.0 mm to correspond to various models. We will further expand the lineup of blank spokes in the future!
